EDUCATION

Chennai Mathematical Institute — **CHENNAI, INDIA**
Bachelor of Science, Mathematics and Computer Science. — *2024–2027*

- *Relevant Coursework: Reinforcement Learning, Foundations of Machine Learning, Mathematical Principles of Modern Machine Learning, Quantum Computing, Martingales, Logic, Probability Theory, Probabilistic Measure Theory, Theory of Computation, Design and Analysis of Algorithms, Differential Equations. (Full list on website.)*

ACHIEVEMENTS IN PROBLEM SOLVING

- *Qualified for the Indian National Mathematical Olympiad (top 30 in India).*
- *Secured best in university position and top percentile in Simon Marais Mathematical Competition, awarded by Jane Street.*
- *Selected for the Math Talent Reward Program Winter Camp by ISI.*
- *Selected for the All India Math Circle by ICTS.*
- *Amongst the top performers of the Madhava Mathematical Competition, selected for its summer nurture camp.*
- *Top 40 in India in the Prosperity Competition by IMC.*

EXPERIENCE

LONDON INITIATIVE FOR SAFE AI (LISA) — **LONDON, UK**
ILIAD INTENSIVE PARTICIPANT — *JUNE 2026*

- *A month-long intensive introduction to technical AI alignment.*

INDIAN INSTITUTE OF SCIENCE (IISC.) — **BENGALURU, INDIA**
DATA SCIENCE & ML SUMMER INTERN — *MAY 2025 – JULY 2025*

- *Explored the mathematics that drives current progress and research in data science through statistics and other tools.*
- *Studied high-dimensional geometry, singular value decomposition, Markov chains, random walks, and ML algorithms.*
- *Attended various lectures and workshops at IISc as well as ICTS on statistics, probability, and data science.*
- *Completed various mini-projects such as designing image compression systems and classifiers using PCA.*
- *Guided by Prof. Manjunath Krishnapur. Contact: manju@iisc.ac.in*

INTERNATIONAL CENTRE FOR THEORETICAL STUDIES — **REMOTE**
MATH CIRCLE MEMBER — *OCT 2021 – JAN 2025*

- *Collaborated with professors, Ph.D. students and post-doctoral researchers in designing or solving curated problem sets.*
- *Applied mathematical creativity to non-traditional concepts to design innovative problem-solving approaches.*

EKAL ABHIYAN — **DHANBAD, INDIA**
VOLUNTEER — *JUNE 2022 – JULY 2024*

- *Taught underprivileged students mathematics and sciences in the rural areas of Jharkhand.*

PROJECTS

- ***"Uncovering Deceptive CoT in Unfaithful Models"** – an independent research project published on LessWrong.*
- ***Reading Project:** (August – December 2025): Probabilistic Measure Theory (guidance: Prof. B.V. Rao)*
- ***Reading Project:** (September – December 2024): Introduction to Option Pricing Using Martingales (guidance: Prof. Rajeeva Karandikar, the head of the National Statistical Commission)*
- *Developed a virtual currency, an online marketplace to facilitate transactions, and algorithms to facilitate side-betting on sports, simulating an information market.*
- *Analyzed the performance of players in a tennis match through the implementation of statistical tools and data analysis such as Markov chains, and identified key trends and reversals.*

CONFERENCES AND WORKSHOPS

WINTER SCHOOL ON GENERATIVE AI AND COMPUTATION IN SOCIAL CHOICE AND ECONOMICS — IIT Jodhpur

- *Covered Generative AI fundamentals and fair allocation problems in resource distribution.*

CONFERENCE AND WORKSHOP ON STATISTICAL FINANCE — CMI

- *Participated in the Complexity Science workshop and the Microeconomics through Data Science workshop, and attended various talks on financial mathematics and applications of statistics.*

ADDITIONAL INFORMATION

Technical Training: Python (Proficient), Haskell (Proficient), LaTeX (Proficient), C++ (Intermediate).
Quantum Computing: Familiar with Classiq and basic quantum algorithms.
Languages: English, Hindi, Sanskrit (Basic), German (Basic).
Other Achievements: Former Tennis State Champion, Advanced Open Water Diver.
Other Interests: Racquet Sports, Athletics, Poker, Chess, Philosophy, Logic, Management and History.
